

### ***Detailed Action***

In an interview on 4/5/2010 (See attached Interview Summary) Applicant pointed out that the reasons for allowance indicated claim 87 allowable instead of claim 86 which is corrected below; and that a reference was not properly initialed in the IDS received on 7/18/2007. This action is being sent to clarify the record correcting the previous reasons for allowance to indicate the correct claims and provide a properly initialed IDS.

### ***Reasons for Allowance***

Claims 86, 89, 92 and 98-101 are allowable. The prior art of record does not include the step of "said areas are grouped into a plurality of subject areas based on said motion of each area of said plurality of areas; said similarity is computed for each of corresponding subject areas in said at least one frame which correspond to said plurality of subject areas; and said processed frame is acquired by obtaining weighting coefficients whose values increase or decrease in correspondence to a reference level of the similarity , then weighting said corresponding areas of said at least one frame with said weighting coefficients, and synthesizing said weighted subject areas and said plurality of subject areas."
